The Self-Assessment Excel Dashboard; with the Fourier analysis Self-Assessment and Scorecard you will develop a clear picture of which Fourier analysis areas need attention, which requirements you should focus on and who will be responsible for them:. OSA | Self-Fourier functions and self-Fourier operators The concept of self-Fourier functions, i.e., functions that equal their Fourier transform, is almost always associated with specific functions, the most well known being the Gaussian and the Dirac delta comb. We show that there exists an infinite number of distinct families of these functions, and we provide an algorithm for both generating and characterizing their distinct classes.
